Babet Gray is a Senior Lecturer and Joint Centre Manager of the Centre for Modern Languages at Belfast Metropolitan College.

The centre currently offers about 150 courses in eighteen languages across Belfast. Babet lectures in French and Spanish. In her role as an ILT (Information and Learning Technology) Promoter, she is charged with training and supporting staff in the use of IT and the Blackboard Virtual Learning Environment. ILT Promoters are not IT specialists: they are enthusiasts who try to motivate others.

Babet is leading a 3-year Grundtvig project entitled Tandem Plus Learning which aims to bring language learners together to practice their language skills, face to face during transnational meetings and via the VLE in between visits.
