Elisabeth Bergeret is a teacher in the Centre de Formation Professionnelle et de Promotion Agricole (CFPPA) in Vesoul, France.

The centre is located in an Agricultural school, and provides among others English lessons for adults. Elisabeth teaches French and English in the centre which offers three different levels of English courses (beginners, intermediate and advanced). In order to boost her learners and make them meet foreign people so that they can put their language skills into practice, Elisabeth has been a partner for 2 years in a 3-year Grundtvig project entitled Tandem Plus Learning. This project aims to bring language learners together, face to face during transnational meetings and via the VLE of the Belfast Institute in between visits.
